A photograph of construction workers on a large rebar structure, likely for a bridge or large building. The workers are wearing safety gear like hard hats and harnesses. The image is partially covered by a blue circular graphic on the left and a white circular graphic on the right.

Overview.

Introduction

Our company is founded on solid business ethics such as honesty, integrity, service excellence, accountability, and professionalism. We also appreciate the importance of being accountable, socially responsible, and environmentally aware. 2 WAYS CIVIL works hard to deliver value to clients by keeping a watchful eye on budgets, by managing timelines and by communicating openly. With extensive core resources, we also have access to a strong network of people, equipment and assets, in urban and remote areas. Talk to us about our services, which include the following: Building and construction, civil engineering works, road construction, road upgrades, road rehabilitation and road marking and storm-water drainage and also Fiber installation.

Our Mission

Dedication to providing quality construction, technical and management services to our customers. We will strive to implement a long-term relationship with our clients, based on safety, quality, timely service and an anticipation of their needs. To help fulfill this mission, we will treat all employees fairly and involve them in the quality improvement process to insure responsiveness and cost-effective work execution.

Vision.

To become the client's most preferred choice by attaining excellence in quality and timely completed value-added projects. To provide the highest level of service in the construction industry while offering superior craftsmanship to every project we handle
